December 5th, 2012

1. Sources

2. Test

You might want to check

- PDF with animations is a great post that ultimately points you to media9.
- media9 CTAN page
- media9 manual: open it with Acrobat to see all the nice things.
- Post about using movie15: note that movie15 is deprecated.

Youtube video

What you need for media9

Basically, the newest version of textlive and a new version of Acrobat Reader (above 9 something).
